Beginner Level	This is a basic introductory language acquisition module for absolute beginners in the written and spoken language; students are not assumed to have any previous knowledge of the language. During the course, students will be taught basic Khmer, for example, the Khmer alphabet, and how to form and read Khmer words, phrases, and sentences.
Intermediate Level	The class covers several basic constructions of the language, enabling students to acquire basic skills in reading, writing, comprehension, and speaking. We apply a communicative-based approach in our teaching. Emphasis will be placed on good pronunciation and the social and linguistic conventions of everyday conversation. Successful students will gain the ability to read and write short simple texts and communicate on simple topics. Then, they will learn from easy to more challenging Khmer conversations; by doing so, we enable them to understand and speak Khmer more quickly.
